TURKIYE, THE PLACE WE CALL HOME

Join us on fascinating journey of discovery. A journey that will take you back in time, across varied terrain, through magnificent landscapes, into ancient cities and over sparkling seas. Discover a country blessed by beautiful, unspoilt, beaches, adorned with exquisite architecture, buzzing with colorful culture and exotic tastes and artifacts born out of a unique east meets west location. Welcome to Türkiye, the place we're proud to call home.

ISTANBUL

This mesmerizing city offers the very best of both worlds for visitors seeking fascinating history, a unique cultural heritage, and a vibrant, creative modern spirit. Straddling the beautiful Bosphorus between the Sea of Marmara and the Black Sea, Istanbul is a truly transcontinental city, with nearly a third of its population living in Asia. From its art and architecture to its cuisine and customs, you can expect a rich melting pot of influences and flavors.

CAPPADOCIA

Probably the most visually striking region of Türkiye, Cappadocia presents a surreal, otherworldly landscape where centuries of erosion have sculpted caves, clefts, undulating valleys, and the iconic "fairy chimneys" from soft volcanic rock. Stay in one of the luxurious cave hotels, seamlessly set within these ancient dwellings, and use it as your base to explore this extraordinary region. It is said that Cappadocia is home to more than a thousand churches and chapels, each adding to its rich historical and cultural tapestry.

AEGEAN COAST

With its long, sun-drenched beaches and fragrant, pine-clad hills, Türkiye's Aegean Coast is as captivating as it is diverse. Beyond its natural beauty, the region offers a wealth of historic sites and fertile, agriculturally rich landscapes. Popular with travelers from around the world, it still reveals tranquil havens and pockets of authentic local culture alongside its more vibrant, cosmopolitan resorts. In the southern part of the region, a warm, sunny climate prevails for most of the year, complemented by crystal-clear, inviting waters.

ANTALYA RIVIERA

Also known as the "Turquoise Coast," the Antalya Riviera offers an exquisite blend of islands, bays, and peninsulas, creating one of the Mediterranean's most captivating cruising grounds. Here, unspoiled white-sand beaches meet fragrant pine forests, while charming fishing villages sit alongside ancient ruins and mysterious tombs carved into dramatic cliff faces—an evocative landscape where natural beauty and history intertwine.

A PROUD HERITAGE

Established in 1969, Karavan is one of Türkiye's oldest travel companies, with over 55 years' experience in destination management. As a family, the Baltazzis, who own and still run the operation, can boast an even greater history of providing top class hospitality, having hosted both the Sultans Abdul Mecid and Abdul Aziz at their home in the mid-19th century. The Baltazzi family has added modern methods and technology to these experiences and traditions to create the Karavan Group with its 4 distinctive brands: Karavan Travel, Karavan Cruises, Karavanmar Cruise Services and Kmice.

The name “YILKI” means “to be left to the wild”, which is a truly accurate description for these horses who live in their herds in the wild across different parts of Türkiye. Some sources believe that the horses came long ago from Middle Asia to be ridden by Turkish warriors, as one of the strongest features of these horses was that they could be ridden an incredible 60 miles per day with very little food and water. These magnificent Yilki horses helped the farmers by pulling harvesting ploughs until the 1970’s, when they were replaced by modern technology and farming methods. PRIVATE VISIT TO THE ANCIENT CITY OF MAGNESIA

Karavan Travel is the proud sponsor of the archaeological excavations of the Ancient City of Magnesia. We are the first and only travel company in Türkiye sponsoring an excavation. The unique history of Anatolia and its associated historical remains are some of the most important events which contributed to the development of Türkiye and regional tourism. We strongly believe that the travel companies that benefit the most from this wealth must go back and contribute to the emergence of this wealth and to ensure the sustainability and continuity of cultural tourism in Türkiye.

Magnesia on the Meander (Magnesia ad Maeandrum) is located in the Aegean region, 20km from Kusadasl. The most important cruise port in Türkiye, and 120km from Izmir. The exceptional location of Magnesia, from its establishment around the years of 400-350BC until the end of the Roman Imperial Period on the intersection of a web of roads leading to the ancient harbors of Meander, reveals the significance and historical importance of the city.

In the work of renowned thinker Plato "The Laws", Magnesia which is described as a city to be newly built is given as an ideal exemplification in the chapters regarding "ideal city planning" and "ideal city-state management". It is highly probable that the Macedonian Kingdom and King 3rd Alexander supported the establishment of Magnesia, in its current location, during the 4th century BC to assure the safety of Meander Valley in Anatolia.

The 3rd biggest temple built for Artemis in Anatolia, which is the masterpiece of an illustrious architect of 3rd century BC, Hermogenes, and praised in the book of the famed Roman architect Vitruvius, is also located in Magnesia.

UNIQUE MOMENTS IN MAGNESIA

The guests of Karavan Travel will enjoy the below "Unique Moment" services;

Located at the foot of Mount Honaz, Colossae was once a significant city of ancient Phrygia, known for its strategic position on historic trade routes and its thriving textile production. It also holds an important place in early Christian history, referenced in the New Testament through St. Paul's Epistle to the Colossians, which adds a meaningful spiritual dimension for scholars, pilgrims, and cultural travelers alike. Ongoing excavations continue to reveal new structures, necropolis areas, and material findings that reshape our understanding of the site. A visit to the Eskiden Antique Shop is a real treat for ceramic and glass lovers.
